

Cristy Cardinal has been a member of UUAA since 2012, and has served this congregation as a member of the Social Justice Council, as a worship associate, as a Coming of Age mentor, and as a chalice circle facilitator. Cristy introduced the Examining Whiteness curriculum to our congregation in 2016, and is committed to shaking up leadership to de-center whiteness, and building leadership that dismantles white supremacy both in our congregation and in the world. She has professional experience in both event planning and leadership development, skills that have come in handy while serving on the Leadership Development Team in the last year. Cristy will begin at Starr-King School for the Ministry this fall, in the Masters of Divinity degree program.
